

MLA Example

Climate change is a significant global issue that affects various aspects of life. According to John Smith, "Climate change is a significant global issue" (Smith 45). This sentiment is echoed by other researchers, such as Smith and Jones, who argue that "the impacts of climate change are far-reaching" (Smith and Jones 67). Additionally, studies have shown that "global warming is accelerating" ("Global Warming" 23). In another work, Smith discusses the economic implications of climate change, stating that "the financial costs are substantial" (Smith, "Economic Impacts" 89). Furthermore, as noted by an expert quoted in Smith's research, "the environmental consequences are severe" (qtd. in Smith 102).
