

Timeline Makers - Top Choices

Timelines are often used for presenting events in a chronological order or demonstrating the stages of a particular process. The Internet is full of **free** tools that offer great and fancy features for timeline creation. Here are some timeline sites that made the cut in eLearning's [Top 10 Free Timeline Creation Tools For Teachers \(2017 Update\)](#).

Smartdraw

<https://www.smartdraw.com/timeline/examples/>

36 different drop and drag templates. Some are quite unique, utilizing curves and coloured text boxes.

TimeGlider

<http://www.timeglider.com/>

TimeGlider has some very interesting features that make it one of the most distinctive free timeline creation tools on the Internet. The company calls it “Google Maps but for time” and they are right. Zooming in allows you to further focus on parts of the timeline where many events are accumulated and must be emphasized. Specify the importance of the event and make it prominent on the timeline.

TimeToast

<https://www.timetoast.com/>

Another highly effective free timeline creation tool that gets the job done well. It doesn't have too many fancy features, so if your lesson is in need of basic designs, then look no further. Add pictures and text.

Tiki Toki

<https://www.tiki-toki.com/>

Tiki-Toki is web-based software for creating beautiful interactive timelines that you can share on the internet.
